REPUBLICAN NOMINATION. FOR REPRESENTATIVE TO CONGRESS, BASTERN DISTRICT, THOMAS DAVIS. OF NORTH PROVIDENCE

Thomas Davis for Congress. The contest for Congressman has opened again in this District under the same circumatances in which it closed in April. The only difference is in the withdrawal of the Administration candidate, who evideatly is willing to give up the Pro-Slavery cause in this State as hopeless. We approve his sense. No man can be returned from this District who is willing to support the present movement for the re-opening of the Slave Trade, and no man can be sure of keeping on good terms with our present Buchanan-Slidell party unless he is willing to go all lengths in support of any measures they find required by the demand of . he South.

We in this District have simply to choose between two men: one is Thomas Davis, and the other is -not Thomas There is a candidate called Chris-Davis, tepher Robinson: a very good lawyer, and very estimable man, as we are informed, who lives we believe in Cumberland. From the Journal we learn nothing of him. The whole thunder of that sheet is spent in abusing Thomas Davie, with what success the votes on the 22d inst, will show. Of the importance of this Election no man who is familiar with the political history of the country can entertain a moment's doubt.

The Phirty-Sixth Congress will have to meet responsibilities as great as ever have been imposed upon a similar body since the adoption of the Federal Constitution .-They will find the Treasury bankrupt, the Post Office existing only by the sufferance of its creditors, and the Administration despised and thwarted alike by opponents and friends; and all political parties and men watching every motion and every expression with a view to the impending Presidential election. Upon their action during the first long session must depend in great measure the shape assumed by political parties in that contest. The great principles upon which it is to be fought are indeed fixed beyond their control; but' the organization of forces, the tactics of the campaign, will be influenced by them to a degree that may be decisive of the is-

Moreover, in a certain contingency it is upon the next House that will devolve the cleation of a President of the United States. This contingency was perfians never more likely to occur than in the next election. The daily widening breach between Northem and Southern democrats may prevent the election of their candidate by the people, even if the opposition are not sufilciently united to be successful; and Rhode Island having in such case an equal vote with the largest State, may not improbably turn the scale.

For all these reasons the approaching Congressional election demands the most conscientions attention from every voter, it is of the very highest importance that our District should be worthily represented during the next two years. Not merely by talent, not merely by integrity, not merely by good intentions. All these are necessary to the proposed occupant of that position, but besides these we need at this time other qualities. We need experience in the pennier duties of Congressional life, we need houses, that has already been tritd by all the temptations that the seat of gevernment can offer, and that has come out from them as gold from the furnaces we need an iron will that will bow to no earthly dictation save the sober judgment whom he represents.

All these are presented for our suffrages in the person of Thomas Davis.

It a still longer time were to clapse he forethe election, we should be still more confident of his success, but even now he can be chosen if all who are sincerely in his favor will exert themselves aright-

We appeal, therefore, to men of all purthe who love the right to prevent such needless delay by a hearty and unanimous support at the polls on Wednesday next, of the true and tried candidate, HONEST TOM DAVIS.

The dry goods house of Stewart & Co., one of the partners of which has recently deceased, has a cash capital of over two milion, and does from seven to eight millions, of dollars worth of business every nullions, of dollars worth of business every year. About thirty-one years since, or in 1828, Wm. H. Burrowes, the partner all-luded to, then a lad of seventeen years of age, entered this store as a clerk. He is send to have been a native of Dublin, Irealand. In 1841 he was admitted to a partnership in the bosses, and at the time of his Land. In 10th ne was aumitted to a part-nership in the house, and at the time of his death had been connected with jt about eighteen years, his chief sphere having been that of cashier in the financial department. At the time of his death it is stated that the hooks of the establishment showed a balance to his credit of about \$700,000, He died a bachelor, never having been

Mr. J. R. HARRINGTON would respectfully inform the lady respect that he has, after long and tedious experiments, succeeded in producing an article which has, from time immemorial, been much needed by every housekeeper in the land. It is that of a peculiarly constructed

CARPET LINING.

This article is a new invention, and has been parented. It not only entirely protects Carpets fro . moths and other inrects, but it makes the Carpet soft to the tread, acts as a nullier of sound, is a non-conductor of heat, thoroughly and effectually prevents dampness striking through, and weat is of the greatest desideratum of all, it makes your Carpet last twice as long as if staw or puprwere used. This lining is very law in price, and will at least save FIFTY FER CENT. on the cost of the Carpet. The

Carpet Lining Company

is situated at No. 62 Warren street, New York, where all orders may be sent, or it can be obtained at most of the Carpet Stores throughout the country.

J. R. HARRINGTON, AGENT. N. B.—Samples of the article may be seen on the desk of the publisher of this paper.

Gold's Putent Low Pressure Self Regulating Apparatus. S manufactured by the Ithode Island Steam Heating Company, Pawtucket,

A Steam Heating Company, Pawtucket, It. I.

This method of warming toth public and private buildings, as has been proved by accusal experience for the last four years, is the cheapest, safest, most pleasant and heating of any other known method. It learnes the room heated in this manner entirely free from the gasses, dust, smoke, &c., which are continually arising from stoves and hot air furnaces. The heat produced is sufficient to warm a cold building in the coldest of weather, and is also mile, pursuant and agreeable, having the softness of summer air, and to the consumptive and invalid it is invaluable.

This apparatus can be put into buildings.

ble.
This apparatus can be put into buildings in process of creetion or those already built.
We shall endeavor in all cases to put upthe Apparatus in a style not only meritorious to ourselves, but to the satisfaction of our
